Title: New Parks People Zone Funding Application

Summary of Issue:

People Zones is an initiative that was created by the Office of the Police and Crime Commissioner (OPCC) in 2018. People Zones are geographical locations across Leicester, Leicestershire and Rutland (LLR) which have been identified through crime, public health and census data.

People Zones aim to provide communities with an opportunity to shape and become involved in work designed to build stronger, safer and more resilient communities.

To inform the direction of this work, the OPCC is looking to commission one provider to undertake community consultation and research into the People Zone areas by adopting an Asset Based Community Development (ABCD) approach, focusing on people and place assets within the communities. We would expect the successful provider to consult with community members, residents, key stakeholders and community-based organisations to identify, connect and mobilise assets within the People Zones.

The findings of this project will be used to inform sustainable community-driven development work, and contribute towards the design and delivery of local plans to improve and make People Zone areas safer, more cohesive and more resilient areas.
